Rural Fire Defense Program Helps Build Stronger Fire Departments

Just one of the services offered by the Rural Fire Defense Program involves assistance in developing specifications for the design and purchase of structural and wild land apparatuses. NODA has been helping rural fire departments in our eight county region to strengthen and build their equipment inventory to position themselves to better service their communities. All of this is made possible with the help from the Dept. of Defense’s Federal Excess Physical Property program. The program allows for apparatuses to be turned over to rural fire departments. The rural fire depts. will then create a functioning piece of equipment used to fight fires. Once these projects are completed, the titles will be turned over to the fire department and become their property. There are currently 10 open projects, including a completed tanker truck at Carmen Fire Department and one under way for Cherokee Fire Department.

Interested in starting a project like this? Contact Cecil Michael to learn more.

New at Carmen Fire Dept.

The making of a new Tanker Truck for Cherokee Fire Dept.
Multiple Project Managements

Multiple project managements in Capital Improvements and Comprehensive Planning has taken hold in NODA as we are managing resources across various projects.

Capital Improvements Planning Projects
Helena, Hennessey

The Town will benefit from an additional siren; however, a project's funding depends upon a number of factors: its location, cost, funding source. CIP a multi-year planning tool has been used to identify needs for the community and the financing source for public infrastructure improvements.

Primary Cell needs upgrading

After months of field GPSing, 98% of the manholes are captured in the digital map.

For A & B we can use the existing road

32.43 Acres

48.50 Acres

For C & D we have to build new road

42.41 Acres

31.0 Acres

In the Town of Waukomis Comprehensive Planning Project, establishing a vibrant, safe walkway system throughout the Town is our goal while the Public reviewing process is on.

In the Town of Ringwood Comprehensive Planning Project above, curving out a site for industrial Park comparing sites is the goal.
NODA Training for Clerks
Scheduled for Aug. 30

NODA’s eight county area has seen a turnover in city/town clerks in recent years so we have scheduled a training to assist city and town clerks in learning what NODA is, what we can do for their community, how to prepare for grant applications and projects, and the programs offered by NODA.

This training will be a good refresher for clerks who are not so new as well!

Do you have a new mayor or town board members? They are welcome to attend too!

Are you a county clerk? You’re invited to attend so you can have a better understanding of NODA and our services for your county.

Please mark your calendar to come to NODA on Aug. 30 for information and a chance to meet and mingle with some of your counterparts in NODA’s service area.

AUGUST 30, 2016 - 1:00 to 3:00 pm
2901 N. Van Buren - Enid
(NODA Office)

Some of the items to be discussed:
- Income surveys for CDBG applications
- Annual audits
- REAP grants
- Grant applications
- Rural fire defense program
- Comprehensive plans
- Capital Improvement Plans (CIP)
- Mapping
- Regional transportation planning
- And more.

We look forward to seeing you soon!

Please contact Deanna Goodman at NODA to register.
Snacks and drink provided.
Higher Speeds starting at NODAnet

NODAnet has installed new equipment that allows point to point links to pass greater amounts of data at higher speeds. Customers in the Northwood Addition are the first to have access to this newer technology providing faster speeds and more bandwidth.

Contact the NODAnet office today to see if it's available in your area.

The world is full of beautiful things - like you our members! Thank you for your dedication and support. You are a star ingredient in the recipe of our success.
